DR. DIOSDADO M. SAN ANTONIO

Regional Director
Region IV-A CALABARZON

Sir:

Greetings!

For the 17th year now, the **Philippine Institute of Chemical Engineering – Junior Chapter Batangas (PICHE-JCB)** has been committed to serve as the avenue for unleashing the potentials among our youth to better prepare them for the advancements and demands of the millennium.

To continue nurturing Chemical Engineering's scholastic excellence among future engineers, the organization has been conducting **Chem Collision**, a region-wide competition among the secondary schools in the CALABARZON area which aims to radiate and synthesize the students' knowledge in Physics, Mathematics, Sciences and General Chemistry. This year also marks the addition of **Science Investigatory Project** into the categories of the contest.

- **Chem Collision**, tests the intelligence and skills of the students through sets of carefully formulated questions requiring analytical, logical, and critical thinking in answering them.
- **Science Investigatory Project**, on the other hand, aims to enhance their creativity and competence as they contend to come up with a project design.

This year's **Chem Collision and Science Investigatory Project** will be on **September 25-26, 2015 (Friday and Saturday)** at the **Batangas State University Amphitheater, CEFA Building, Alangilan Campus**; with the theme, "**Radiating Stories, Synthesizing Bonds and Harnessing Intelligence for 17 Years of Innovation and Beyond.**"

In relation to this, we would like to seek your approval for the public secondary schools in the region to participate in this event.

To complement with the schedule of the schools, we would like to request for a copy of the regional school calendar presently used.

We are looking forward to your consent and support.

Thank you very much.

For inquiries, you may contact Rolando Sarmiento III, overall head of ChEm Collision and Inter-HS SIP Competition, at 0917-495-0651 or email him at pichejcb2015@gmail.com.
