Infocast is an online solution powered by Smart Network which is accessible through a computer, tablet, or any device with web browser. This system is similar to a text blast or group message where the admin can actually broadcast announcements or information to all pre-registered numbers. But since this is from Smart, only subscribers of Smart, TNT and Sun are allowed to be registered in the system.

For a faster dissemination of information, the Assistant Schools Division Superintendent, OIC-Assistant Schools Superintendent, Education Program Supervisors, Public Schools District Supervisors, and Elementary/Secondary School Heads are requested to subscribe to Smart, Talk N' Text or Sun cell and submit the number through this link:
