## Invitation to Participate in the 2018 IRO Preliminaries and Summer Sumo Games

Dear Sir and Madam:

The Data Science and Technology Corporation or DSTC, in partnership with the City Government of Muntinlupa and De La Salle Santiago Zobel School, is cordially inviting your school's robotics team to join and compete in the upcoming 2018 IRO Preliminaries and Summer Sumo Games. This robotics event will take place on June 16-17, 2018 at the Sports Pavilion of DLSZ School in Muntinlupa City.

As an outstanding member of the education industry in the country, we highly value your participation and representation in the event. We believe that this opportunity will allow the students to sharpen their robotics skills, benchmark with their fellow young robot engineers, learn from their peers, and gather more resources to improve their aptitude in STEM robotics. We have also prepared events where adult participants, i.e. teachers, parents, school officials, can join and share in the fun of learning and teaching robotics.

Corollary to the event, the Philippines is hosting two of the biggest international robotics events, namely the 2018 World Robot Games to be held in Tagaytay City and the 20th International Robot Olympiad to be held in Muntinlupa City. The IRO Preliminaries and Summer Sumo Games is also an opportunity for the participants to prepare for these big events in the robotics field.

For your reference, here are the events lined-up for the participants:

- I. Youth Robotics Convention - registration is open to all (please refer to the registration for the procedures)
- II. ZumbaBot-Charity Fitness - a zumba fitness dance for everyone. Registration is open to all. The biggest Zumba delegation, with minimum of 20 individuals as a team registration, will win a **Group Scholarship for a 2-day Robotics Workshop** good for 20 students to be awarded to the winning team's choice of recipient. The Robotics Workshop includes the training, robot sets for the training, certificates of course completion, and mini robotics competition.
- III. International Robot Olympiad Preliminary Games - IRO Creativity Category, IRO Mission Challenge, IRO Robot in Movie, IRO Robot Farming (Humanoid) - follows the IRO format and rules
- IV. Sumo Games - 500g category, 1kg category, 3kg category, Family sumo - follows the World Robot Games format and rules
- V. Press Conference / Dinner Banquet
- VI. Poster - Making Contest
- VII. Special Award: To entice more robot game participants, the biggest delegation from a single team or school will win **One (1) Brand New Educational Robot Set (Weeebot mini)**.

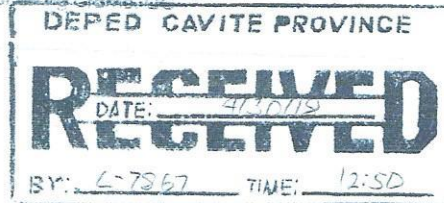

Please find attached the Registration Form which contains more details about the upcoming event and procedures on how to register. To request more details, you can send an email to [philippineroboticteam@gmail.com](mailto:philippineroboticteam@gmail.com).

We will be honored to see your teams in the event.

Thank you.

With sincere regards,

Pinky B. Legaspi  
Philippine Robotics Team
