DepEd CALABARZON

Greetings!

The Philippine Association of Food Technologists Inc. - Beta Chapter is a duly recognized academic organization in the University of the Philippines Los Baños established for BS Food Technology students to aid their institute in promoting food science and technology as an instrument to help the society.

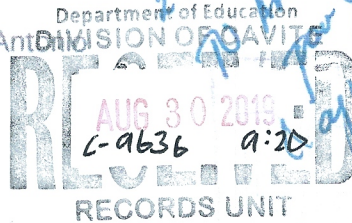

In pursuit of its objectives of emphasizing the significance of food science and technology and foster dynamic leadership and responsibility among its members, PAFT -BETA will be organizing **Regional Inter-High School Food Technology (RIFT) Quiz Bowl** on **October 12, 2019** at the **University of the Philippines Los Baños**.

In this regard, we would like to ask the support of your good office to endorse our activity to the many high schools within Region IV-A. This will not only increase the awareness of high school students in Food Technology, but will also widen their views on the possible courses that they will be taking once they graduate high school. For the past years, we have had high schools come to our event to engage in our activities as audience, and for this year, we are planning to accommodate more for the progress of food technology.

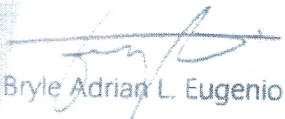

We believe that we share the same goal of improving the education of our Filipino youth, and we hope that you consider our request. If there are any requirements for its processing, please let us know. We would be very honoured to accomplish them.

Should you have any questions, please do not hesitate to contact the undersigned through the mobile phone or email address below. We will gladly entertain your questions regarding this matter.

We would be more than happy to discuss further details of the event with you. Thank you very much and more power!

For the Filipino youth,

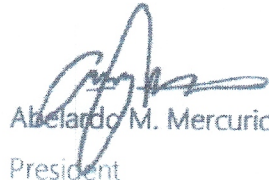

Bryle Adrian L. Eugenio
