DIVISION MEMORANDUM
 NO. **310**, s. 2020

To: OICs, Assistant Schools Division Superintendents
 Chief, Curriculum Implementation Division
 Chief, Schools Governance and Operations Division
 Education Program Supervisors
 Public Schools District Supervisors
 Public Elementary and Secondary School Heads
 School Health and Nutrition Section Personnel
 All concerned

ALTERNATIVE APPROACH TO HEALTH INSPECTION OF LEARNERS

1. Education and health are interrelated. Academic performance of learners and instructional outcomes are determined by the quality of health of school children. In exigency to deliver quality health service, the Department of Education (DepEd) issued DepEd Order No.028 s.2018, titled "Policy and Guidelines on Oplan Kalusugan sa Department of Education (Ok sa DepEd)" for the provision of basic primary medical and dental care to learners to allow them to attain their full educational potential. Amid the state of health emergency and the COVID-19 pandemic in the country, DepEd continues to exhaust all efforts to implement its priority programs, projects, and activities to ensure health, safety and well-being of the learners, hence, this Office, through the Schools Governance and Operations Division- School Health Section, announces the implementation of the **Alternative Approach to Health Inspection of Learners** for the SY 2020-2021.
2. This approach involves the use of the **School Health Assessment Form** which can be accessed online as an alternative to the traditional face-to-face health inspection done pre-pandemic. (*See Annex A for the School Health Assessment Form Template and Annex B for the List of Links per District*).
3. All enrolled learners, from Kinder to Grade 12 are enjoined to fill out the form with the guidance of their parents/guardians through the links which will be given to them by their respective district nurses through their teacher/advisers.
4. Rest assured that data collected will only be accessible to the school health personnel and will solely be utilized to establish baseline data for future health-
