Dear Sir:

The UPLB Chemical Society, a duly recognized academic organization, will be sponsoring KAPNAYAN 2016, a nationwide Chemistry fair which will be held on January 18-23, 2016 at the University of the Philippines Los Baños.

KAPNAYAN is a nationwide, triennial, weeklong Chemistry fair consisting of activities revolving around a theme. KAPNAYAN 2016 is going to be the fourteenth Chemistry fair and will be participated by secondary schools. This year's theme for KAPNAYAN is "Aligning Chemistry Education with ASEAN Integration towards Global Competitiveness in Agro-Industrial Technology". The fair aims to expose the high school students on the range of opportunities a globally-standardized chemistry education can offer as well as its role in achieving a more sustainable Agro-Industry. The said event will feature different activities, which include seminars, exhibits, audio-visual presentations, educational tours and nature trips, extemporaneous speech, essay-writing, investigatory projects and poster-making contests, the Chemical Magic Show and the much anticipated nationwide Chemistry quiz contest.

In this regard, we would like to ask for an endorsement or advisory that recommends KAPNAYAN 2016 to both public and private secondary schools in your region. It will be highly appreciated if such endorsement will also be issued for the information of DepEd officials and personnel. Attached with this letter is the advisory from the Department of Education via DepEd Advisory No.303, s. 2015.

You can contact us at +(63)905-809-1224, or email us at kapnayan.chemsoc@gmail.com.

Please anticipate our gratitude for your favorable response.

Respectfully yours,

Jessam

KAPNAYAN 2016 OF THE UNIVERSITY OF THE PHILIPPINES
LOS BAÑOS (UPLB) CHEMICAL SOCIETY

The University of the Philippines Los Baños (UPLB) Chemical Society will hold its *Kapnayan 2016* with the theme *Aligning Chemistry Education with ASEAN Integration Towards Global Competitiveness in Agro-Industrial Technology* from January 18 to 23, 2016 at the UPLB, College, Laguna.

The *Kapnayan* aims to:

1. expose the secondary school learner-participants on the range of opportunities a globally-standardized Chemistry education can offer as well as its role in achieving a more sustainable Agro-Industry;
2. emphasize to them the importance of Chemistry education in the Agro-Industrial Technology;
3. impart to them the role of a globally competitive individual in a developing country;
4. promote to them the Chemistry as well as other physical and biological sciences; and
5. instill in them the academic excellence in Science and Technology.

This event will feature different activities, which include seminars, exhibits, audio-visual presentations, educational tours and nature trips, extemporaneous speech, essay-writing, investigatory projects and poster-making contests, the Chemical Magic Show and the much anticipated nationwide Chemistry quiz contest.

The target participants to this triennial Chemistry fair are learners from both public and private secondary schools nationwide.
